On the eve of the International Day of Energy Saving, a republican information and educational campaign “Belarus is an energy-efficient country” is being held under the motto “In a united movement for the better!”

The purpose of the campaign is to raise awareness of the population about possible ways and methods to improve the efficiency of energy use, including in everyday life, which is one of the important measures to improve the welfare of citizens and the economic growth of the country as a whole.

The promotion will last until November 11th.
